

Join Us At The MWV Youth
STEM Expo!

2025 MWV Youth STEM Expo Climate Exploration Track

Climate projects are
eligible for an *additional
award and \$300 cash
prize!*

Climate Project Ideas:

- **Measure weather and climate in your neighborhood**
- **Design and test prototypes for flooding prevention**
- **Make a do-it-yourself rain gauge**
- **Calculate the carbon footprint of your home or school and research ways to reduce it.**

Calling all Climate Explorers!

For the first time this year, the MWV Youth STEM Expo is encouraging any and all students who want to explore and submit a climate-related Scientific Research or Design & Engineering project.

What is a "Climate" Project?

Any project that examines the causes and/or consequences of climate change with a focus on data collection. Projects can also be investigations of small and large scale solutions!
